The screenshot shows a technical SEO audit tool interface. At the top, there is a search bar containing the URL `https://www.fab-clinic.co.uk/` and a blue **Analyze** button. Below the search bar are two tabs: **Mobile** and **Desktop**, with **Desktop** selected. The main content area is divided into two sections. The first section, titled "Discover what your real users are experiencing", has a "No Data" status. The second section, titled "Diagnose performance issues", displays four performance metrics in circular gauges: Performance (65), Accessibility (75), Best Practices (95), and SEO (75). Below these, a larger gauge shows a Performance score of 65. A legend indicates that scores are color-coded: red for 0-49, orange for 50-89, and green for 90-100. To the right of the Performance gauge is a thumbnail image of the website's homepage, which features the text "Lift | Firm | Tighten" and "Radiofrequency Microneedle & High Intensity Focused Ultrasound".
